BORROWER'S PAYMENTS TO INVESTORS (LENDERS) UNDER THE LOAN AGREEMENT⁶

Type of payments	Amount and periodicity of payments
Loan repayment to investors	According to the terms of the project and the payment schedule of the concluded loan agreement.
Payment of interest to investors	According to the terms of the project and the payment schedule of the concluded loan agreement.
Interest (if the borrower misses the deadlines provided in the payment schedule)	The Borrower pays 0,2 % of overdue amount to the investors for each calendar day of default.
Payments of interest in cases of early repayment of the loan amount	<p>If the Borrower decides to exercise the right to repay the loan amount (or part thereof) earlier than the term specified in the loan agreement, the Borrower pays full interest for the minimum loan period specified in the special terms of the loan agreement (if the loan amount is repaid before this minimum loan period for which no interest was paid).</p> <p><i>For example, if the minimum loan period is 6 months and the Borrower wants to repay the full amount of the loan in advance after 2 months (for which interest has already been paid according to the payment schedule), the Borrower must immediately repay interest for the remaining 4 months together with the loan amount. Thus, when repaying the loan amount in advance, interest will have to be paid to the investors in all cases for at least the minimum loan term.</i></p>

⁶ The exact terms and amounts of payments are specified in the concluded loan agreement and its payment schedule.
